# Low-Cost Internet Service

AT&T is offering **low-cost wireline home Internet service** to qualifying households:

- With at least one resident who participates in the U.S. Supplemental Nutrition Assistance Program (SNAP) and
- With an address in AT&T's 21-state service area, at which we offer wireline home Internet service, and
- Without outstanding debt for AT&T fixed Internet service within the last six months or outstanding debt incurred under this program.

Service availability and speed may vary by address. AT&T will assign you the **fastest** of these speed tiers available\* where you live:

- 10 megabits per second, for \$10 per month\*\*
- 5 megabits per second, for \$10 per month
- 3 megabits per second, for \$5 per month
- 1.5 megabits per second, for \$5 per month
- 768 kilobits per second, for \$5 per month

If none of the above speeds are technically available at your address, unfortunately you won't be able to participate in the Access program from AT&T at this time.

\*Internet speed claims represent maximum network service capability speeds. Actual customer speeds may vary based on factors including site traffic, content provider server capacity, internal network management factors, and device capabilities and are not guaranteed. Max speeds may not be realized if 2 or more HD shows viewed at same time. For more information, go to [att.com/speed101](http://att.com/speed101) and [att.com/broadbandinfo](http://att.com/broadbandinfo).

\*\*All prices are plus tax. Service will include a monthly data allowance of either 150GB or 1TB of data per month depending on the type and speed of service you receive. If you exceed your monthly data plan allowance, you will be charged \$10 for each 50GB of data usage in excess of your data plan, even if less than 50 gigabytes is used.
